

Smooth Filler Treatment

Introducing a brand-new, vegan alternative to traditional keratin treatments! Wella's Smooth Filler is designed to smooth and strengthen your hair from the inside out - without altering your natural texture.

- No Formaldehyde
- No Silicones
- No Fumes
- No Health Risks
- No Wait Time -

You can wash your hair same day!

Smooth Filler contains just eight powerful ingredients that penetrate deep into the hair instead of simply coating the surface. With thermal activation, it fills porosity gaps and creates long-lasting internal bonds.

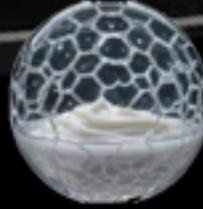

Solvent
Water

Humectant
Glycerin

Emulsifier
Steareth-20

Stabilizer
Dlutam Gum

Bond Builder
Glyoxylic Acid

Thickener
Cetaryl Alcohol

Conditioner
Glucquat 125

pH Adjuster
Sodium Hydroxide

Results last up to 3 months. While it does not straighten the hair, the treatment reduces frizz, minimizes styling time, and enhances overall hair manageability. Smooth Filler can also be paired with color, cutting, and blowout services for even healthier results. Discover softer, shinier, stronger, and more manageable hair!
